COVID-19

Skilled Nursing Facilities: COVID-19

Data collection is undergoing a transition as CDPH enhances its data collection process to improve accuracy, timeliness, and to align with new guidance from the federal Center for Medicare & Medicaid Services (CMS). CDPH guidance for the new reporting process is in All Facilities Letter 20-43.2.

NOTE: The cumulative data under the new reporting system includes cases from January 1, 2020, to the most current available data report.

The interactive data dashboard below provides both a point-in-time snapshot of SNFs in California that have reported one or more confirmed COVID-19 cases, within the previous 24 hours, for both residents and health care workers as well as a cumulative total since January 1, 2020. The most current date of available data is provided, with previous reports available by choosing a specific date through the "DATE" selector at the top right of the page. SNFs that did not provide a daily report are listed as "N/A." County-level data is also provided by clicking on the "COVID SNF DASH-COUNTY" tab at the top of the dashboard.

Case numbers are provisional and may change as facilities correct or add data. Values of less than eleven (11) are masked (shown as <11) in accordance with de-identification guidelines.
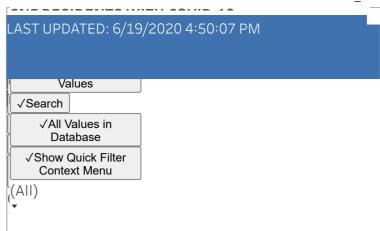

COVID-19 fatalities in the dashboard below include deaths that were reported by facilities to the best of their knowledge. These include deaths that occurred at nursing homes and those that occurred in other locations, such as a hospital or private home, if the death occurred within the 14-day bed hold period after the resident transferred from the SNF. Deaths that occurred outside of this 14-day period may not be captured. Some of these deaths may include residents who had COVID-19, but died of something else.

Given these complexities, fatality totals may not exactly match other data sources or, in some instances, the death may be double counted in more than one data source such as county-level fatality totals.

All data in this dashboard is provided to offer a snapshot of COVID-19 in skilled nursing facilities in California, and does not imply wrongdoing on the part of the facility.

COVID-19 data for Adult and Residential Care Facilities for the Elderly is available by clicking here.

If you are having difficulty accessing this dashboard, please contact CDPH at CHCQweb@cdph.ca.gov to request the information in an alternate format.
